Our mission of Making Communities Healthier® has always been central to the contributions we make to Trousdale County and the surrounding area. As our region found itself impacted by the COVID-19 pandemic, that mission became even more critical to the well-being of our community. We are proud to be part of a national healthcare network that provided quality care for more than 20,000 COVID-19 patients in 2020 – including those here at home. LifePoint Health's continued support – and yours – allows us to create places where people choose to come for healthcare, physicians want to practice and employees want to work. As we look ahead to a bright future, we look forward to further enhancing how we serve our neighbors today and for generations to come. Thank you.
